

Special Issue

Dietary Behaviors and Health Outcomes in Low-Income Populations

Message from the Guest Editor

Manuscript submissions for this Special Issue may be based on qualitative, quantitative, or mixed methods original research or secondary data analyses (including reviews) that evaluate:

- Dietary behaviors such as food choices, food access, eating patterns, or other dietary behaviors
- Health outcomes such as body mass index or other anthropometric measures, diabetes, heart disease or other physical health outcomes, and mental health outcomes (depression, anxiety, etc.)

Low-income populations can include samples from across the life-span, including pregnancy, young children, pre-adolescents, adolescents, young adults or college students, adults, and older adults, and life situations such as homelessness and the use of food assistance programs. Articles related to the impact of the COVID-19 pandemic on dietary behaviors and health outcomes in low-income populations are also welcomed.

- food insecurity
- poverty
- homelessness
- food assistance programs
- eating patterns
- food choices
- food access
- dietary behaviors
- physical health outcomes
- mental health outcomes

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens
University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
