

## Special Issue

# Digital Dentistry: The Evolution of Dental Care

### Message from the Guest Editor

3D scanners (intraoral, desktop and face scanners, cone beam computed tomography) and computer-assisted design/computer-assisted manufacturing (CAD/CAM) software, together with new aesthetic materials and powerful manufacturing and prototyping tools (milling machines and 3D printers) are radically transforming the dental profession. As a consequence, in recent years we are witnessing a real evolution of dental care. However, there is a need for scientific evidence regarding the new high-tech protocols and new materials. In the present thematic issue, we solicit the submission of original research articles (technological reports, case reports, case series, retrospective and prospective clinical studies, randomized controlled trials), as well as review articles, on the topics of digital dentistry.

### Guest Editor

Prof. Dr. Carlo Mangano

1. Head of Digital Dentistry Unit Research, S. Raffaele Hospital, Milan, Italy
2. Founding member and President elect of Digital Dentistry Society

### Deadline for manuscript submissions

closed (31 January 2019)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
