

## Special Issue

# Disability and Healthcare Disparities

### Message from the Guest Editors

In this Special Issue, we invite contributions which will explore any aspect of health disparities for persons with disabilities, including interventions that can reduce such disparities. This Special Issue is open to all research designs (including systematic reviews), levels of healthcare, and all contexts. We welcome contributions from around the world, and we particularly encourage contributions from or about low- and middle-income countries and about under-represented populations.

- health disparities
- disability
- access
- health services
- social determinants of health
- convention on the rights of persons with disabilities

---

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
