

## Special Issue

# Discoveries in Oral and Maxillofacial Surgery

### Message from the Guest Editors

The purpose of this Special Issue of *IJERPH* is to collect the greatest number of original articles, case reports, and review articles on recent discoveries in oral and maxillofacial surgery. In particular, we especially encourage young specialists (maxillofacial surgeons, ENT, plastic surgeons, neurosurgeons, neuroradiologists) to submit interdisciplinary work and multi-country collaborative research, as well as narrative and systematic reviews and meta-analyses.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
