

## Special Issue

# Emotional and Behavioral Problems in Children, Adolescents, and Family

### Message from the Guest Editors

This Special Issue aims to include original research and systematic reviews examining the analysis, assessment, and intervention in behavioral and emotional disorders in children and adolescents, as well as the role of the family in such processes. In this Special Issue, research related to emotional regulation processes and psychological flexibility are of interest, especially interventions from a contextual-functional approach (third wave therapies) and from the transdiagnostic approach. The aim of this Special Issue is to publish studies concerning efficacy and/or (cost-)effectiveness of interventions to improve emotional well-being and psychological flexibility in children, adolescents and their families. Special attention will be given to innovative submissions using intervention protocols in emotional regulation and psychological flexibility from third-wave therapies and/or from transdiagnostic approaches. Areas of interest include systematic reviews or meta-analyses, experimental and correlational studies, and clinical or case series studies, with special emphasis on detailed illustration of intervention protocols.

### Guest Editors

Prof. Dr. María Inmaculada Gómez Becerra

1. Department of Psychology, University of Almería, 04120 Almería, Spain
2. Health Research Centre -CEINSA-, University of Almería, 04120 Almería, Spain

Dr. Juan Miguel Fluja Contreras

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
