

## Special Issue

# Ensure Healthy Lives and Promote Wellbeing for All at All Ages

### Message from the Guest Editor

The third Sustainable Development Goal (SDG) is entitled “Ensure healthy lives and promote well-being for all at all ages, profiles health as a desirable outcome in its own right”. There is much to be done when it comes to the achievement of this SDG. We are delighted to invite colleagues to submit work which supports the SDG 3 agenda. This includes a wide range of areas and issues (e.g. reproductive, maternal, newborn, child and adolescent health, mental health, vaccination, NCDs, infectious diseases and universal health coverage). We look forward to your submissions!

### Guest Editor

Dr. Ziad El-Khatib

1. Department of Global Public Health, Karolinska Institutet, 171 77 Stockholm, Sweden
2. Bill and Joyce Cumming Institute of Global Health, University of Global Health Equity, Kigali 6955, Rwanda

### Deadline for manuscript submissions

closed (28 February 2023)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
