

Special Issue

Environment and Behavior

Message from the Guest Editor

This Special Issue calls for papers that investigate determinants of health-related behaviors beyond laboratory settings. The environmental influence on behavior choices has been acknowledged across several socioecological models and have been supported by empirical investigations. The purpose of this issue is to present novel studies that advance our understanding of health behavior change and maintenance in real-world environments. Environmental settings can include but are not limited to community centers, rehabilitation centers, workplace, and the home. Ideal submissions include theory-based investigations that are experimental studies, observational designs with follow-up measurements, or systematic reviews. Keywords

- physical activity
- exercise
- sedentary
- nutrition
- health
- behavior
- theory
- maintenance
- environment

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
