

Special Issue

Environment and Respiratory Health

Message from the Guest Editors

This Special Issue provides an opportunity to publish basic, epidemiological, and clinical research papers on environmental effects on respiratory health and environmental lung diseases. We welcome papers related to evidence of associations and/or mechanisms between environmental factors and respiratory diseases. We are also interested in scientific evidence that could support strategies to prevent environmental lung diseases. All manuscripts will be peer reviewed by experts in this field and would be due by 31 December 2021.

Guest Editors

Prof. Dr. Woo-Jin Kim

Department of Internal Medicine, Kangwon National University,
Chuncheon 24341, Korea

Dr. Junghyun Kim

Division of Pulmonary and Critical Care Medicine, Department of
Internal Medicine, National Medical Center, Seoul, Korea

Deadline for manuscript submissions

closed (31 January 2023)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
