

Special Issue

Environmental and Occupational Health in Brazil

Message from the Guest Editors

This Special Edition addresses cutting-edge epidemiological, clinical, and experimental studies, and literature reviews on all aspects of environmental and occupational health in Brazil. Studies with children, adults, and vulnerable populations related to toxicology, epidemiology, and public policies are especially welcomed. Manuscripts may include but are not limited to the adverse health effects of physical, chemical, and biological risks, exposure to air, water, soil and food pollution, metals and pesticides, organic solvents, dust, and climate change.

Guest Editors

Prof. Dr. Rejane C. Marques

Prof. Dr. José Garrofe Dórea

Dr. Rafael Junqueira Buralli

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
