

## Special Issue

# Environmental and Occupational Health in Brazil

### Message from the Guest Editors

This Special Edition addresses cutting-edge epidemiological, clinical, and experimental studies, and literature reviews on all aspects of environmental and occupational health in Brazil. Studies with children, adults, and vulnerable populations related to toxicology, epidemiology, and public policies are especially welcomed. Manuscripts may include but are not limited to the adverse health effects of physical, chemical, and biological risks, exposure to air, water, soil and food pollution, metals and pesticides, organic solvents, dust, and climate change.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
