

Special Issue

Environmental Signaling & Human Health

Message from the Guest Editors

This Special Issue of *International Journal of Environmental Research and Public Health (IJERPH)* focuses on the current state of knowledge on the links between environmental signals and human health. New research papers, reviews, case reports and conference papers are welcome to this issue. Papers dealing with new advanced approaches and smart technologies to monitor, model, and assess environmental consequences and risks in cities and towns for health prevention purposes or risk assessment and management are also welcome. Other manuscript types accepted include methodological papers, position papers, brief reports, and commentaries. We will accept manuscripts from all disciplines including exposure assessment science, epidemiology, intervention studies, risk and health impact assessment, soil risk management and mitigation strategies.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
