

Topical Collection

Feature Papers in Children's Health

Message from the Collection Editors

We are pleased to announce the Special Issue entitled "Feature Papers in Children's Health". This is a collection of important high-quality papers published in Open Access form by Editorial Board Members, or prominent scholars invited by the Editorial Office and the Section Editor-in-Chief. This Special Issue aims to discuss new knowledge or new cutting-edge developments in the children's health research field through selected works, which will make a great contribution to the community. Papers could be either research papers with a detailed summary of their own work done so far, or papers highlighting the state-of-the-art developments in one of the areas covered by the Section "Children's Health". Contributions to this important Special Issue will be accepted by invitation only. You are welcome to send a tentative title and a short abstract to our Editorial Office (ijerph@mdpi.com) for evaluation before submission. Please note that selected full papers will still be subjected to a thorough and rigorous peer-review.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
