# **Special Issue**

# Female Breast Cancer (FBC) Health, Prevention and Control

# Message from the Guest Editor

This Special Issue aims to make a significant contribution to research in this field by focusing on encouraging researchers and practicians to make multidisciplinary, integrated, and holistic efforts to build a sustainable infrastructure for the dissemination of cancer prevention and control measures of cancer care. High-quality research in BC is one of the most essential infrastructure factors. The ways in which researchers and professionals tackle these challenges now will determine the wellbeing of FBC patients in terms of their hope for successful recovery and better HRQOL. Thus, this Special Issue seeks to publish original, experimental, theoretical, and applied research about FBC health, presentation, and control. The issue presents interdisciplinary approaches combining medical, psychological, psychosocial, mental, social, and psychiatric perspectives in an attempt to improve the diagnosis, treatment, and prevention of FBC.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

# Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.
