

Special Issue

Fire Vulnerability and Prevention and Suppression Effectiveness under Ongoing Global Change

Message from the Guest Editors

We are currently creating a Special Issue of the *International Journal of Environmental Research and Public Health*, and we would like to invite you to submit your research. This Special Issue intends to outline the different perspectives and challenges that we face in the 21st century. The worldwide fire regime is essential in assessing fire vulnerability and the effectiveness of prevention and suppression activities. This Special Issue aims to cover, without being limited to, the following areas: fire risk and danger, fire behaviour, fire vulnerability (ecological, socioeconomic, etc.), fire impacts assessment (on vegetation, soil, atmosphere, etc.), wildfires in wildland urban interface, fire resilient ecosystems, wildfire suppression (tactics, effectiveness, etc.), and fire prevention treatments (shaded fuelbreak, mastication, prescribed fire, etc.) Papers from a multidisciplinary point of view are also welcomed.

Guest Editors

Dr. Juan Ramón Molina Martínez

Prof. Dr. Francisco Rodríguez y Silva

Prof. Dr. Jorge Antonio De las Heras Ibáñez

Deadline for manuscript submissions

closed (31 July 2023)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens
University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
