

## Special Issue

# Fish as an Environmental Quality and Human Health Bioindicator

### Message from the Guest Editors

This Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)* focuses on the current state of knowledge on the links between fish quality, environmental status, and human health. New research papers, reviews, case reports, and conference papers are welcome to this issue. Here are some examples of topics that could be addressed in this Special Issue:

- Indices of fish quality;
- Different toxicants in fish tissue and organs, including: Heavy metals, e.g., mercury, cadmium, copper, lead, arsenic, etc., in aquatic organisms;
- Organic contaminants;
- Microplastics;
- Human health risk assessment;
- Bacterial, viruses, parasitic diseases of aquatic organisms;
- Nanotoxicology;
- Fish as a bioindicators of environment status;
- Aquaculture systems and their impact on the environment;
- Application of drugs in aquaculture and their impact on environmental and human health.

### Guest Editors

Dr. Joanna Łuczyńska

Dr. Monika Kowalska-Górska

Prof. Dr. Dariusz Kucharczyk

Dr. Marek Jan Łuczyński

### Deadline for manuscript submissions

closed (30 November 2020)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
