

Special Issue

Food Consumption, Nutrition and Public Health

Message from the Guest Editor

This Special Issue in the *International Journal of Environmental Research and Public Health* intends to publish both original, cutting-edge research and extensive reviews contributing to a deeper understanding of food choice, preferences, acceptance, consumption, and the health effects of proper nutrition as well as those focusing on product innovation and marketing beyond the traditional measurement of sensory preferences and acceptability. Keywords

- health and healthy eating
- conscious consumption
- food-evoked emotions
- organic products in the diet
- pulses in consumer choice
- food preference
- willingness to try
- purchase intent
- food choice
- food intake
- health risk and benefit statement

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
