

Special Issue

Addressing Food and Nutrition Security in Developed Countries

Message from the Guest Editors

Improving food and nutrition insecurity is increasing as a public health priority in rich countries, such as Australia, Europe, the United Kingdom, Canada, and the US. We are inviting academics, researchers and higher degree students conducting research on food and nutrition insecurity in developed countries to submit abstracts for consideration in a Special Issue of the *International Journal of Environmental Research and Public Health*. We especially welcome multi-disciplinary research in the area of food and nutrition security, both quantitative and qualitative, in the following areas:

- Health consequences of food insecurity
- Evaluation of innovative interventions to address food insecurity
- Measurement and monitoring
- Public policy perspectives, reviews or analysis
- The economic and social cost of food insecurity
- Emerging trends and populations affected
- Perspectives of charitable food sector and food banking staff and recipients

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
