Special Issue

Advances in Foot Disorders and Its Treatment

Message from the Guest Editor

We are pleased to announce the launch of a new Special Issue entitled "Advances in Foot Disorders and its Treatment". This Special Issue seeks novel research papers related to foot disorders and its treatments, especially orthopedics and walking aids devices. This Special Issue aims to discuss new knowledge or new developments in the foot disorders field. Papers could be either research papers or review papers highlighting state-of-the-art developments in this area. We encourage the submission of interdisciplinary work and multinational collaborative research. We look forward to receiving your excellent work.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
