

## Special Issue

# Global Infectious Diseases and Surveillance and Control Systems

### Message from the Guest Editor

We are organizing a Special Issue entitled “Global Infectious Diseases and Surveillance and Control Systems” in the *International Journal of Environmental Research and Public Health*, which is an interdisciplinary, [peer-reviewed](#), open-access journal in the area of public health. More information about the journal can be found at <https://www.mdpi.com/journal/ijerph>. We welcome the submission of reviews, original research articles, short communications, editorial letters, systematic reviews, case studies, and other kinds of articles targeting any of these core research questions and beyond. We are launching this Special Issue to address some of the core research questions related to this Issue, such as:

- Global infectious diseases;
- Community infections;
- Hospital infections;
- Outbreak;
- Surveillance and control;
- Vaccines.

---

### Guest Editor

Prof. Dr. Andrea Piana

Department of Medicine, Surgery, and Pharmacy, University of Sassari,  
07100 Sassari, Italy

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
