

## Special Issue

# 2nd Edition: Frontiers in Health Care for Older Adults

### Message from the Guest Editors

Broadly, this Special Issue is seeking original submissions that examine (1) the method to detect and to reverse frailty, loneliness, and social isolation; (2) the method to diagnose early and prevent delirium and other geriatric syndromes; (3) best practices to manage the treatment of the elderly with specific situations, such as hip fracture or oncological disease; (4) best practices for designing, implementing, and/or evaluating integrated interventions to improve healthcare in older adults; and (5) best practices to develop healthcare and social interventions to improve quality of life in older adults living in care houses and nursing homes. Special interest will be given to innovative practices that expand and build upon geriatric approaches with multidisciplinary models. Other manuscript types of interest include relevant position papers, meta-analyses, reviews, brief reports, and commentaries.

### Guest Editors

Dr. Francisco José Tarazona-Santabalbina

Dr. Sebastià Josep Santaeugènia González

Dr. José Augusto García Navarro

Prof. Dr. José Viña Ribes

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
