

Special Issue

Impact of Romantic Relationship Dissolution on Mental Health and Quality of Life

Message from the Guest Editors

In this exciting Special Edition of *IJERPH*, we wish to focus on either temporary or permanent romantic relationship dissolution and its impact on our mental health and quality of life. We welcome both theoretical and empirical contributions, scale and measurement development papers, and intervention descriptions and results related to the topic. Further, we encourage studies including minority groups and children. We look forward to working closely with you, and we hope that, together, we can make an important Special Issue contribution to this important area of research.

- relationship dissolution
- relationship breakup
- marital dissolution
- divorce
- separation
- death of a spouse
- children with divorced parents
- mental health
- quality of life well-being

Guest Editors

Prof. Dr. Gert Martin Hald
Dr. Jenna Marie Strizzi
Dr. Camilla S. Øverup

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
