# Selected Paper from the 15th International Symposium on Recent Advances in Environmental Health Research

### Message from the Guest Editor

This Special Issue will collate selected papers presented at the 15th International Symposium on Recent Advances in Environmental Health Research, Jackson, MS, USA, 17–20 February 2019. We have an agreement with the Symposium Chair that a discount will be offered for manuscripts accepted after peer review from this symposium. Topics will include:

1. New frontiers in environmental health research;
2. Nanoscience, nanotechnology, and nanotoxicology;
3. Environmental toxicology and health risk assessment;
4. Emerging topics in computational biology and environmental modeling;
5. Health disparities and environmental security;
6. Medical geology and human health;
7. Natural resources damage assessment and management.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
