Theoretical and Empirical Advances in Internet-Related Addictions: Psychosocial Antecedents and Outcomes

Message from the Guest Editors

We welcome theoretical and empirical studies on all types of Internet-related addictions in the hope of providing readers the latest update of potential risk and protective factors and health outcomes associated with these addictions. We believe high-quality theoretical and empirical studies in this field can eventually lead to the next milestone for Internet-related addictions, and we invite you to take part in the process.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
