# **Special Issue**

# The Impact of Job Insecurity on Non-Traditional Outcomes

# Message from the Guest Editor

I am delighted to announce a forthcoming Special Issue of the International Journal of Environmental Research and Public Health (Impact Factor: 2.145) entitled, "The Impact of Job Insecurity on Non-Traditional Outcomes." As meta-analytic reviews clearly document, the vast majority of research on job insecurity has focused on a relatively narrow set of outcomes, including job satisfaction, organizational commitment, turnover intentions, burnout, and physical/mental health. Far less attention has been paid to equally important outcomes such as: work-family conflict, life satisfaction, safety, absenteeism or presenteeism, actual turnover, counterproductive work behaviors, job performance, creativity, and more. The purpose of this Special Issue is to offer researchers an opportunity to publish highquality cutting-edge job insecurity research on these (and other) non-traditional outcomes to better understand the myriad effects that job insecurity may have on under-studied work- and non-work outcomes.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

# Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
