

## Special Issue

# Physical Activity, Diagnostics and Treatment in Knee Injury

### Message from the Guest Editors

This Special Issue is devoted to presenting the link between physical activity and knee injuries, as well as new trends in diagnostics and conservative and operative treatments. We would like to invite basic research scientist to introduce recent advancements in the field of knee injury pathology. It is well known that a multidisciplinary approach is essential for patients with such lesions. For this Special Issue, entitled *Physical Activity, Diagnostics, and Treatment in Knee Injury*, we would like to invite authors to submit original papers, review articles, systematic reviews, and metanalyses related to the topic of knee injuries.

## About the Journal

### Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
