

Special Issue

Mental and Brain Health of Children and Adolescents

Message from the Guest Editor

It is my pleasure to announce, “Mental and Brain Health of Children and Adolescents”, a Special Issue of the *International Journal of Environmental Research and Public Health*. This will be a collection of high-quality papers (original research or review articles) published in open access form by members of the editorial board, or scholars invited by board members or the Editorial Office. This Special Issue focuses on research in the field of child/adolescent brain health and mental health. We hope that this issue may serve as an ideal forum for dissemination of innovative research and ideas in the field. Contributions to this Special Issue will include research papers detailing the author’s own work performed so far, or papers that highlight current developments in child/adolescent mental and brain health. Please note that submitted full papers will be subjected to a thorough and rigorous peer-review. I am looking forward to receiving your excellent work.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
