

Special Issue

Migration, Resilience, Vulnerability and Migrants' Health

Message from the Guest Editors

This Special Issue of the *International Journal of Environmental Research and Public Health (IJERPH)* focuses on the migration, resilience and vulnerability and general migrants' health. Original research papers, case reports, reviews and conference papers are welcome to this issue. Articles dealing with new approaches to address issues, including migration (opportunities, challenges and vulnerability), migrants' health, settlement and migrant health care service access and specific migrants' subgroups will be accepted. Other manuscript types to be accepted will include methodological papers, position papers, policy briefs and reports and commentaries. We will accept manuscripts from different disciplines, including public health, social and behavioural sciences, anthropology, epidemiology, psychology and demography.

Guest Editors

Prof. Dr. Lillian Mwanri

Dr. Hailay Gesesew

Dr. Nelsensus Klau Fauk

Dr. William Mude

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
