

Special Issue

Nursing Practice and Education

Message from the Guest Editors

This Special Issue includes different areas of Nursing Practice and education in healthcare. Priority will be given to research results related to nursing practice, nursing education, development of advanced competencies, women's health, gender studies, innovation in the training of nursing students or professionals, and evidence-based nursing interventions. Both quantitative and qualitative methodologies will be considered. We hope that this Special Issue will serve as an opportunity to share and disseminate studies of high interest to improve professional nursing practice and education. Prof. Dr. Cesar Leal-Costa

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
