Special Issue

Occupational Stress, Human Health and Wellbeing

Message from the Guest Editor

Dear Colleague This Special Issue explores current research in the field of organizational health and wellbeing. Studies highlighting the sources of occupational stress and their implications for employee health and productivity, organizational interventions to enhance health and wellbeing, the impact of employee assistance programmes on employee health and performance, meta-analyses on links between workplace stressors/individual differences and health outcomes or other psychosocial factors and their links to health and/or behavioural change are all welcome. Professor

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia
