# **Special Issue**

# Research, Investigation and Treatment on Oral Health

# Message from the Guest Editors

The recent diagnostic and clinical updates have greatly renewed the whole world of clinical dentistry. The discipline is acquiring more and more relevance due to the increasing importance that people give to their own oral health. Good clinical practice in dentistry is dependent upon our understanding of how drugs and pathologic conditions affect the patients, the mouth and the interventions we perform; therefore, it will be of particular relevance in this Special Issue, which will include a selection of studies aiming to give the readers an updated and qualified general glimpse of modern clinical dentistry from the point of view of both advanced research and general clinical practice.

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

## Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

#### **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
