

Special Issue

Personality, Health, and Well-Being among Older Adults

Message from the Guest Editor

This Special Issue of the International Journal of Environmental Research and Public Health (IJERPH) aims to contribute to our knowledge of the relationship between individual psychological factors (including personality) and the health and well-being of older adults, in addition to elucidating the mechanisms underlying these relationships (e.g., mediation process and moderating effect). The editor of this Special Issue invites you to submit presentations of research regarding personality, health, and well-being among older adults. Original articles, literature reviews, meta-analyses, brief reports, and commentaries are welcomed.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
