

Special Issue

Physical Activity Levels, Sport and Emotional Intelligence

Message from the Guest Editors

In recent years, researchers have shown an increased interest in emotional intelligence and its relation to physical activity and sports. Papers addressing these topics are invited for this Special Issue, especially those combining a high academic standard coupled with a practical focus on sports performance and promoting physical activity and health, concerning the development of emotional intelligence.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief
