

Special Issue

The Latest Research on Maternal and Child Health

Message from the Guest Editors

We are honored to present the special issue entitled "The Latest Research on Maternal and Child Health". It aims to present high-quality scientific articles (original research articles or comprehensive/systematic review papers) presenting the latest achievements and research directions in the field of maternal-fetal medicine and neonatology.

In the hope of creating a multidisciplinary platform for scientific exchange, we invite all researchers interested in maternal, fetal, and newborn health to share their research results and their own clinical experience.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
