

Special Issue

2nd Edition of Primary Healthcare

Message from the Guest Editors

We are organizing the second edition of the Special Issue “Primary Healthcare” in the *International Journal of Environmental Research and Public Health*, a peer-reviewed scientific journal, which publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to <https://www.mdpi.com/journal/ijerph>. The Special Issue welcomes original research articles presenting quantitative and/or qualitative data that highlight core values of primary healthcare: health-promoting, disease-preventing, community-oriented, patient-centered, and continuous healthcare.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.
