

Special Issue

Resilience across the Life Span

Message from the Guest Editors

This Special Issue of the *International Journal of Environmental Research and Public Health* (IJERPH) focuses on the current state of knowledge on the impacts of resilience on health. Manuscripts in the format of research papers, brief reports and reviews advancing the understanding and conceptualisation of resilience at individual, family, community and/or social levels, instrument development and validation, assessment, methodological issues and resilience-building interventions in various contexts are welcome.

Guest Editors

Dr. Helen Y. L. Chan

Dr. Ho-Yu Cheng

Dr. Connie Yuen-Yu Chong

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou
RCMI Center for Urban Health Disparities Research and Innovation,
