Special Issue Sleep and Wellbeing

Message from the Guest Editor

We are organizing a Special Issue on Sleep and Wellbeing in the International Journal of Environmental Research and Public Health. The venue is a peerreviewed scientific journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to http://www.mdpi.com/journal/ijerph. Sleep is medicine, as exercise is medicine. Sleep, a behavioural performance enhancer, surpasses the ergogenic effects of caffeine and other enhancing agents. However, sleep can be delicate and easily disrupted by the same factors that promote it, including psychological, physical, medical, and lifestyle (diets, exercise, environment, relationships, stressors, and sleep hygiene) factors. Sleep deprivation can have negative implications for mental, metabolic, physical, and immune functions. This Special Issue is open to any subject area related to sleep health and wellbeing.

Guest Editor

Prof. Dr. Chin Moi Chow

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
