

Special Issue

Social and Environmental Determinants of Health and Health Disparities

Message from the Guest Editors

This Issue will highlight new research and analyses on the social and environmental determinants of health, and how these pathways can be modified to mitigate negative consequences.

We welcome submissions that include, but are not limited to, the following areas:

- Social and environmental determinants of health;
- Social (e.g., racial residential segregation) and environmental (e.g., air pollution) determinants of health disparities;
- Within-group socioeconomic status variation and health;
- Disaster planning and relief disproportionately affecting vulnerable communities;
- Natural environments and mental/physical health;
- Built environment and health;
- Housing and health;
- Indoor comfort and health;
- Energy insecurity and health;
- Environmental justice;
- Community-based participatory research;
- Climate change and health;
- Public health interventions.

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
