

Special Issue

Toxicology of Metals: Exposure, Effects and Implications for Occupational Health

Message from the Guest Editors

Papers invited for this Special Issue may include the following:

- *In vitro* and *in vivo* original studies assessing the toxicokinetic and dynamic behaviours of workplace-relevant heavy metals, as well as their molecular mechanisms of action and translational studies, combining a high academic standard with a practical focus on their relevance for the health and safety of exposed workers;
- *In field* original studies addressing emerging conditions of metal exposure and early effects through environmental and biological monitoring investigations;
- Research on emerging exposure to metals in novel technological processes and industries and its health effects as well as possible biomonitoring;
- Systematic reviews of the literature analyzing the health and safety aspects of heavy metal exposure with a particular focus on possible implications for occupational health, as well as on policies to manage risks in different occupational settings.

Guest Editors

Dr. Natalia Pawlas

Chair and Department of Pharmacology, Medical University of Silesia, School of Medicine with Division of Dentistry in Zabrze, 41 808 Zabrze, Poland

Dr. Veruscka Leso

Section of Occupational Medicine, Department of Public Health, University of Naples Federico II, Via S. Pansini 5, 80131 Naples, Italy

Deadline for manuscript submissions

closed (30 March 2020)

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation,
Richard N. Dixon Research Center, Morgan State University, Baltimore,
MD 21251, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
