

Special Issue

Water Quality and Ecosystem Monitoring, Analysis, and Management

Message from the Guest Editors

This Special Issue focuses on the current state of knowledge regarding water quality and ecosystem monitoring, analysis, and management with respect to related subjects such as land use, eutrophication, chemical and heavy metal pollution, harmful microscopic organisms and their metabolites, ecosystem health, and climate change. We welcome submissions of research papers, systematic reviews, and technical and methodological papers to the Special Issue. We will also accept relevant manuscripts from different disciplines including toxicology, epidemiology, environmental risk and health impact assessment, and policy and intervention science. The following are examples of topics that could be addressed in this Special Issue:

- Contaminants at the source of ambient and drinking water
- Eutrophication and its effects
- Meteorological-hydrological impacts
- Water quality monitoring and assessment
- Modeling and meta-analysis
- Interactions between chemicals and (micro)organisms
- Land use and water quality
- Freshwater restoration and management
- Water policy, governance, and intervention

Guest Editors

Prof. Dr. Soon-Jin Hwang
Prof. Dr. Young-Seuk Park
Prof. Dr. Ihn-Sil Kwak

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Paul R. Ward

School of Society and Culture, Adelaide University, Adelaide 5001,
Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
