# **Special Issue**

# New Concepts in Women's Bone Health

# Message from the Guest Editor

We are organizing a Special Issue on "New Concepts in Women's Bone Health" in the International Journal of Environmental Research and Public Health. The venue is a peer-reviewed scientific journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal we refer you to http://www.mdpi.com/journal/ijerph/special\_issues/wo men-bone-health. This Special Issue is open to any subject area related to the physiology of bone health across woman's lifecycle, to social/emotional/environmental challenges that are unique to women and to therapies that ensure resorption/formation bone balance to prevent fragility fractures. Our goal is to gather and present the newest data about women's bone health and fracture prevention, to revise outmoded concepts, and ultimately to improve public health for women of all ages.

# **Guest Editor**

Professor Jerilynn C. Prior

Division of Endocrinology, Department of Medicine, The University of British Columbia, Vancouver, Canada

## Deadline for manuscript submissions

closed (15 March 2018)

# **About the Journal**

# Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

*IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

# Editor-in-Chief

Prof. Dr. Paul R. Ward

Centre for Public Health, Equity and Human Flourishing, Torrens University Australia, Adelaide 5000, Australia

## **Author Benefits**

# **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

## Journal Rank:

CiteScore - Q1 (Public Health, Environmental and Occupational Health)
