

Special Issue

Risks and Uncertainties in Financial Markets

Message from the Guest Editors

The aim of this Special Issue is to identify challenges and solutions related to the risks and uncertainties that arise in financial markets. It will feature papers on complex topics, exploring the following themes:

- General equilibrium models in which the distinction between uncertainty and risk is formalized by assuming that there are several types of financial markets;
- How uncertainties in financial markets can affect client decisions;
- How the firm's role in helping these clients may mitigate risks, and how shifting market dynamics can often present strategic opportunities for clients and financial markets;
- The impact of uncertainty shocks on investment and consumption;
- How financial frictions can play an important role in transmitting uncertainty shocks;
- The impact of investor sentiments on financial markets' volatilities.

This Special Issue welcomes empirical studies on a wide range of relevant topics including, but not limited to, the points indicated above.

About the Journal

Message from the Editor-in-Chief

I'm thrilled to take the leadership reins of the *International Journal of Financial Studies* and welcome the opportunity to make it one of the vanguard open-source scientific journals in our field. I eagerly look forward to working with the journal editorial team in building upon the quality instilled by my predecessor to develop the title further and broaden the appeal to other new finance research areas while keeping our core a high-quality finance journal that serves and highly values the scientific community, readers and authors alike. *IJFS* aims to publish high-quality manuscripts in both theoretical and empirical finance spanning all the major research areas in the field. It aims to provide an outlet for original finance scholarly research that promotes interaction among finance scholars and practitioners and bridges the divide that can exist between them.

Editor-in-Chief

Prof. Dr. Zied Ftiti
OCRE Laboratory, EDC Paris Business School, 92415 Paris, France

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Business, Finance) / CiteScore - Q2 (Finance)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 6.6 days (median values for papers published in this journal in the first half of 2025).
