

Special Issue

Mergers and Acquisitions (M&A)

Message from the Guest Editors

The classic finance topic, mergers and acquisitions (M&As), has been widely studied over the past few decades. Along with the availability of new data and research techniques in recent years, it is an opportunity for academics to leverage the update resource and rejuvenate the M&A research. We invite you to submit an original manuscript to the Special Issue on mergers and acquisitions (M&As). This Special Issue will accept papers on all topics related to M&As, including, but not limited to, studies that (1) bring new insight into the M&A strategy, process, and outcome; (2) investigate how M&A participants interact with each other; (3) identify regulatory issues; (4) learn cross-border M&As in a multi-country setting; (5) explore FinTech-related M&As issues; and (6) explore the impact of COVID-19, and other related issues. Innovative research topics are highly encouraged.

About the Journal

Message from the Editor-in-Chief

I'm thrilled to take the leadership reins of the *International Journal of Financial Studies* and welcome the opportunity to make it one of the vanguard open-source scientific journals in our field. I eagerly look forward to working with the journal editorial team in building upon the quality instilled by my predecessor to develop the title further and broaden the appeal to other new finance research areas while keeping our core a high-quality finance journal that serves and highly values the scientific community, readers and authors alike. *IJFS* aims to publish high-quality manuscripts in both theoretical and empirical finance spanning all the major research areas in the field. It aims to provide an outlet for original finance scholarly research that promotes interaction among finance scholars and practitioners and bridges the divide that can exist between them.

Editor-in-Chief

Prof. Dr. Zied Ftiti
