Equitable Geospatial Intelligence: Spatio-Temporal Perspectives on Social Equity and Well-Being

Message from the Guest Editors

This Special Issue seeks original research that uses GeoAI to understand, measure, and address different forms of spatial and social inequality, thereby advancing social equity, human well-being, and justice across space and time. Contributions are invited on, but are not limited to the following topics: SpaceTimeAI for equity intelligence, Health equity and population well-being, Transport justice and accessibility, Socioeconomic inequality and urban change, Environmental justice and climate resilience, Responsible and equitable geospatial intelligence. Both methodological contributions and applied case studies from diverse geographic, cultural, and socioeconomic contexts are encouraged. Interdisciplinary research that bridges geospatial science, artificial intelligence, public health, transport studies, urban analytics, environmental science, and social policy is particularly welcome.

About the Journal

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.
