

Special Issue

GIS-Based Analysis for Quality of Life and Environmental Monitoring

Message from the Guest Editors

In recent years, the application of advanced geospatial technologies in research aimed at understanding, modeling, and mapping the environment has been growing. Moreover, although the term Quality of Life (QoL) is difficult to universally define, the international literature agrees that the assessment of QoL and well-being has to consider, among others, the spatial dimension of amenities such as environmental and urban conditions. Active research is ongoing with regard to these issues in both urban and rural environments. This Special issue is devoted to the exploitation of GIS-based technologies in analyses focusing on environmental monitoring and the assessment of well-being and QoL. We call for original papers from both stakeholders and researchers around the world that focus on topics related to the monitoring and analysis of QoL and the environment.

Guest Editors

Prof. Dr. Christos Chalkias

Prof. Dr. Vassilis Pappas

Prof. Dr. Andreas Tsatsaris

About the Journal

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

Editor-in-Chief

Prof. Dr. Wolfgang Kainz
Cartography and Geographic Information Science, Department of
Geography and Regional Research, University of Vienna,
Universitätsstr. 7, A-1010 Vienna, Austria

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), GeoRef, PubAg, dblp, Astrophysics Data System, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Geography, Physical) / CiteScore - Q1 (Earth and Planetary Sciences (miscellaneous))
