Spatial Ecology

Message from the Guest Editor

The need for a spatial view in Ecology is a fact. Dealing with ecological changes over space and time represents a long-lasting theme, now faced with challenging techniques and modelling approaches. To this end, robustly dealing with spatial problems is crucial to understand processes that shape ecosystem patterns. This Special Issue is devoted to all aspects of spatial science related to Ecology.

About the Journal

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.
