Deadline for manuscript  
submissions:

**closed (30 September 2023)**

### **Message from the Guest Editor**

A new way may be the concept of multi-targeted therapy developed in recent years, which may target tumor-specific molecules and signaling pathways and thus may possess limited nonspecific toxicity. In view of this, this approach represents an extremely interesting landscape with broad research and development opportunities for the entire drug chemistry and oncology field.

This Special Issue aims to collect original research papers or reviews that focus on the discovery of new anticancer drugs, the detailed elucidation of the molecular mechanisms underlying their action, as well as the application of new drugs in targeted therapy against the most aggressive cancers. Contributions may focus on identifying new small molecules or nanomaterials, drugs targeting specific oxidative stress, metabolic and kinase signaling pathways, elucidating mechanisms of treatment response, and developing new therapeutic strategies or effective combination therapies.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
