France

Deadline for manuscript
submissions:
closed (31 March 2024)

Message from the Guest Editor

Cryogenic microscopy techniques, such as cryo-electron microscopy single particle analysis, cryo-electron tomography, cryo correlative light and electron microscopy, and cryo super-resolution fluorescence microscopy, allow a multi-scale and multi-resolution analysis of biomolecular assemblies.

Advances in instrumentation increase the amount and quality of the collected data, which opens new research avenues, including the development of new image analysis algorithms. Over the years, modeling, simulation, and deep learning have become integral parts of cryogenic biomolecular image analysis.

This Special Issue welcomes original research and review articles on advances and future directions in all techniques of cryogenic biomolecular imaging and image analysis, including modeling, simulation, and deep learning.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology,
Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.

Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
