University, Tokyo 13-8421, Japan

Deadline for manuscript  
submissions:

**closed (31 January 2024)**

### Message from the Guest Editor

In the early 2000s, the presence of MSCs in subcutaneous adipose tissue was reported, and cell therapy using adipose tissue stem cells attracted attention as a practical regenerative medicine and is being studied worldwide. The ability to safely and easily collect tissue (subcutaneous fat), which is the raw material for transplanted cells, is extremely important for the spread of regenerative medicine, and it is believed that regenerative medicine using adipose tissue stem cells will become the center of autologous cell therapy in the future. This special issue focuses on the practical application of adipose tissue stem cells and solicits a wide range of topics on the current status, issues, and future prospects of regenerative medicine using adipose tissue stem cells.

### Keywords

- adipose tissue stem cells
- clinical trials
- regenerative medicine products
- mesenchymal stem cells
- regenerative medicine
- practical application issues

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,  
University of Granada, Avda.  
Conocimiento s/n, 18100 Armilla,  
Granada, Spain

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
