### Message from the Guest Editor

Dear Colleagues,

It is my pleasure to invite you to contribute to this Special Issue entitled “Gynecologic Cancer 2022”. The three main cancer types include ovarian cancer, uterine cancer and cervical cancer. Recently, there has been tremendous progress in the field of gynecologic cancer, especially in terms of molecular biology, where so many new molecular subtypes and tailored treatment approaches have been observed. This Special Issue will focus on molecular insights into gynecologic cancer treatments, and I warmly invite you to submit your most innovative research regarding this topic.
