Deadline for manuscript  
submissions:

**closed (31 July 2023)**

### Message from the Guest Editor

Dear Colleagues,

Cellulose, a linear polymer of  $\beta$ -1,4-linked glucose moieties, is the most common and naturally occurring organic polymer on earth. It is considered an almost unabundant source of raw material for the production of environmentally benign and biocompatible products. The fascination of the cellulose biopolymer comes from its particular structure, diverse architectures, reactivities, and multi-functions. Cellulose constitutes the best example of the merging of carbohydrate and polymer chemistry. Consequently, the cellulose macromolecule is related to an extremely wide range of domains, including pure, polymer, fiber, paper, textile, pharmacy, and green chemistry fields.

The present Special Issue is planned to publish original research and review articles on the recent advances dealing with the chemistry of cellulose from pure and applied points of views.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
